

# Sonos Arc Ultra

Powered Dolby Atmos® sound bar/wireless music system with Bluetooth®, Apple AirPlay® 2, and built-in voice control (Black)

## Product info:

- Powered Dolby Atmos sound bar with built-in Wi-Fi and voice control
- Supports up to 9.1.2-channel surround sound
- Plays TV sound, streaming music, and digital audio files from your home network
- Communicates with other Sonos players via Wi-Fi
- Stream sound from TV shows and movies to other Sonos speakers
- Sound Motion™ technology for balanced, natural sound with deep bass
- 14 built-in speakers, each with a matching Class D digital amplifier
  - includes dedicated center channel drivers for clear dialogue
  - precisely angled side, front, and up-firing tweeters create enveloping home theater sound
  - force-canceling woofer for distortion-free bass impact
- AI-powered speech enhancement with three selectable levels for ultra-clear dialogue
- Built-in Amazon Alexa and Sonos Voice Control let you control the sound bar with your voice
- Advanced far-field microphone delivers responsive voice control
  - switch on the back of the bar kills power to the mic for privacy
- Built-in Bluetooth lets you stream music directly from your phone
- Apple AirPlay® 2 lets you stream directly from an iPhone® or iPad® and ask Siri to play Apple Music
- Spotify Connect for easy music streaming

## **Sonos control app:**

- On-device processing for privacy
- Free download from Apple App Store and Google Play
- Compatible with Apple® and Android™ devices
- Play the same song on multiple Sonos speakers, or have different music playing on each one
- Trueplay™ automatically adjusts Sonos speakers to your room for optimum performance
  - Arc Ultra supports Quick Tune using the bar's built-in microphone
- Plays MP3, WMA, AAC, WAV, FLAC, AIFF, ALAC, Ogg Vorbis, and WAV files
- Stream music from online services such as Spotify, Apple Music, Rhapsody, TIDAL, Qobuz and more (subscription required for some services)
- Access 60,000+ live radio stations from around the world with Sonos Radio
