Product info:

Picture:

- 4K screen resolution (3840 x 2160 pixels)
- High Dynamic Range (Dolby Vision®, HDR10, HLG) extends picture contrast and brightness when viewing HDR content
- High luminance panel and heat diffusion sheet delivers an ultra-bright OLED picture
- Self-illuminating QD-OLED (Quantum Dot Organic Light Emitting Diode) display produces infinite picture contrast and absolute black
 - OLED's pixel-level dimming enables each of the panel's pixels to brighten, dim, or power off completely, displaying exceptional picture detail, contrast, and depth
 - Quantum Dot layer powered by XR Triluminos Max display technology expands color volume for vibrant color even at high brightness levels
- Cognitive Processor XR uses powerful real-time processing based on a human perspective for a true-to-life picture
 - XR OLED Contrast Pro increases brightness and enhances color contrast in high-luminance scenes
 - XR Clear Image reduces noise and blur for a sharp picture

- XR 4K Upscaling intelligently re-creates lost textures and detail in lower-res content
- IMAX Enhanced certification for improved performance with IMAX Enhanced 4K/HDR content
- 120Hz refresh rate with XR OLED Motion for sharp, smooth motion even during fast action
