

# High Output Landscape System

## ic6 BOLLARD

### Landscape Loudspeaker

The ic6 Bollard is our high-performance ic6 in-ceiling loudspeaker mounted in our paintable ic6 Bollard Housing (sold separately).

The sleek and high-performing bollard provides 360-degrees of flawless, uniform sound - you no longer have to sacrifice sound quality outdoors.

The ic6 Bollard is available in a deep coffee brown finish and the housing is also paintable. 16-ohm or 70V/100V operation.

## iws12 BOLLARD

### High Output Landscape Subwoofer

The iws12 high output bollard employs a high-power, 1400W, 4" voice-coil long-throw driver in a bollard housing that is easy to place within any landscape environment.

The bass it provides belies intuition, extending deeper than seems possible, with tight, tuneful expression. It's the perfect complement to the ic6 Bollard to create a truly astonishing high-energy environment outdoors.

The iws12 Bollard is available in a deep coffee brown finish and is paintable to match any landscape environment.
